Our Conservative Approach will help us Leap Forward

Industry Fundamentals

✗ Order activity at an all time high led by weak Balance Sheet and over leverage expectations

✗ Real Estate Prices moving up and Inventory Building up

✗ Unsustainable Investments of the past lead to delay in project execution

✗ Significant slow down in Infrastructure creation

✗ Scenario marred by lack of permission and project approvals

✗ Delayed payments and Bad Debts from Clients

✓ Movement in Government Machinery in term of Bidding Activity

✓ Systematic pressures easing in many sectors on back of Government Reforms

✓ Core Infrastructure i.e. Ports, Railways, Roads moving at a faster pace

Man Infra – Strategy

✓ Lowered Order intake from Real Estate Segment

✓ Highly selective in Bidding in a bid to minimize risk & potential losses

✓ Refrained from Bidding Orders

✓ Close monitoring of projects with tight leash on cash flows

✓ Reduced Corporate overheads

✓ Favored Certainty of Revenues rather than Revenues backed by High Debtors

✓ Continued execution of EPC on hand

✓ Built capabilities to move up Value Chain and ventured in Real Estate Development

✓ Following an Asset light Model in Real Estate Development to spread risk

Balance Sheet strengthened with Negligible Leverage

Our Philosophy

These principles will guide the Group in its foray and penetration in Real Estate Segment. Our Learning from the extreme worst witnessed in the Industry in recent past will lead us to always focus on Shareholder value creation and at the same time steer us AWAY from being Adventurous

Be Asset Light

Joint development model will be the preferred mode of Real Estate Development as it spreads risk and leverages on partners capabilities as well

In-house Execution

Projects will be executed by us thus capitalizing on our execution capabilities & expertise leading to better control & margin expansion

Discipline & Efficiency

Continue to maintain financial discipline by tight project monitoring thus ensuring no cost over runs and timely completion of project

Cash Flows

Our focus will be on Cash Flow management so as to manage Project risks and earn high IRR

We are positive on our foray in Real Estate Development but will continue to be cautious and non adventurous
