MD'S MESSAGE

India's GDP grew 7.6% in 2015-16, up from 7.2% a year ago reinforcing India's position as the world's fastest growing large economy. The Reserve Bank, in its first bi-monthly policy review of the current fiscal on April 5, 2016 cut its benchmark Repo rate by 25 basis points to 6.5%; the lowest in the past five years and took a range of measures to enhance liquidity. Indian economy can draw considerable comfort from prevailing favorable macro conditions and growth supportive government policies and initiatives.

FY16 has been a significant year for the Real Estate sector in India. The introduction and promulgation in to law of the Real Estate (Regulation and Development) Bill would prove to be a positive development for the sector. Although we believe that there will be some transition challenges with the Act a reality now; various provisions in the bill such as prior registration of projects and agents with the regulator, information transparency as regards booking and construction, launch of projects post receipt of all approvals and maintaining an escrow for a portion of receivables from the buyer for construction purposes are all steps which bode well for all stakeholders in the sector.

Easing of inflation and expectation of income growth will improve disposable income. At the same time, lower interest rate regime coupled with beneficial macro economic factors will boost the demand for real estate from the end consumer. We are confident that the Indian Real Estate remains at a very early stage of what is going to be a decade long growth story.

The year that was –

During FY2016, as planned, we were able to get all requisite approvals and start work on 4 Residential Redevelopment projects in Mumbai. I am delighted to state that our iconic project "Atmosphere" which is being developed in a joint venture with The Wadhwa Group and Chandak Developers has progressed very well with more than 50% of inventory being sold in Phase 1. Man Infra is executing the construction of the project and it has been regarded as Mulund's fastest developing project.

Last year, we had completed our first Residential project 'Aaradhya Tower' in Ghatkopar, Mumbai ahead of scheduled delivery time. We take pride in saying that we completed yet another project 'Aaradhya Saphalya' located at Ghatkopar, Mumbai in May 2016 in a record 14 months. The construction visibility at all project sites has generated tremendous response for our projects and reiterated stakeholders' confidence in us.

In FY2016, we acquired Development Rights from the landowner to develop approximately 14 acre land parcel in Dahisar, Thane. The company plans to develop a Residential project having an approximate saleable area of 2.6 million sq. ft. with ultra-modern amenities. Strategically located on the Western Express Highway, we look forward to its launch in the next few months.

We have also been working towards redeveloping a sizeable MHADA project in Ghatkopar East, Mumbai. The long drawn process of receiving approvals from MHADA is likely to get completed in 3-6 months. We aim to launch the project in FY2017 and we are confident of receiving a good response for the project.

To sum up the Real Estate development operations of the Company; approximate saleable area being developed by us will exceed 5 million sq. ft. While the 3 ongoing redevelopment projects will be completed between FY2017 and FY2018, 2 sizeable projects are being planned to be launched in FY2017.

With regards to the Road BOT Project that was being executed by Manaj Tollway Private Limited wherein we have issued a termination letter to Public Works Department, Government of Maharashtra (PWD); the management is constantly reviewing the progress and is confident that it would be able to recover a substantial amount of compensation within a reasonable timeframe.

On the EPC front, we completed construction work for port infrastructure at Port Pipavav, Gujarat within the scheduled timeframe. With the Government's plans to mobilise ₹ 1 lakh crore investments to enable port development; we are exploring construction opportunities in the port infrastructure space. The Company has a balance EPC order book of ₹ 172 crore as on March 31, 2016.

Way Ahead -

Today, we are not just a construction company. We are also a developer that is contributing to Mumbai's skyline through landmark residential projects. We have evolved and hence we felt the need to choose a fresh identity that will build a better link between the parent company (construction arm) and the group companies (Real estate development arm). MICL is our chosen new identity which will encompass all the Group's Real estate development activities.

Along with financial tie-ups, we have enough liquidity on books that could cater to the requirements of all our existing projects. The Company's cash & cash equivalent stood at ₹ 177 crore as on March 31, 2016. The parent company, Man Infraconstruction Limited remains a zero debt Company. As a Developer, the Company maintains financial discipline with regards to the investment and subsequent cash flow generation from a project.

As we move forward, our mission continues to complete and deliver each project on time with our excellent engineering and project management capabilities. We will continue to look for value-accretive projects to strengthen our development portfolio and scout for opportunities in the EPC space that align with our risk-return matrix and financial prudence. With various projects nearing completion and bigger project launches in pipeline, we hope that your Company will attain new heights.

We will work hard towards driving our organization in a direction that will maximize value for all our stakeholders. Anchored on our core values and led by a team of hardworking and passionate people, your Company is working towards creating a robust foundation for a sustainable future growth.

I would like to express my gratitude to entire team at Man Infra whose efforts are the result of the strong brand value we have been able to create in the Mumbai market. I would also thank our Board of Directors for their continuous guidance, our partners for their trust and support in our projects and our bankers.

Warmest,

Parag Shah

EXPLANATORY STATEMENT PURSUANT TO SECTION 102 OF THE COMPANIES ACT, 2013

Item no. 5:

In pursuance of Section 148 of the Companies Act, 2013 and Rule 14 of the Companies (Audit and Auditors) Rules, 2014, read with Companies (Cost Records and Audit) Rules, 2014, the Board of Directors of the Company, on recommendation of the Audit Committee, has approved the appointment of M/s Shekhar Joshi & Company (Firm Registration Number 100448) as Cost Auditors to conduct the audit of cost records of the Company for the financial year ending on 31st March 2017 at a remuneration of ₹ 75,000/- plus service tax as applicable and reimbursement of out of pocket expenses, if any. In terms of the provisions of Section 148(3) of the Companies Act, 2013 read with Rule 14(a)(ii) of the Companies (Audit and Auditors) Rules, 2014, the remuneration payable to the Cost Auditors shall be ratified by the shareholders of the Company.

Accordingly, consent of Members is sought to ratify the remuneration payable to the Cost Auditors by passing an Ordinary Resolution for the financial year ending on 31st March 2017.

The Board of Directors recommends payment of aforesaid remuneration to Cost Auditors as set out at item no. 5 of the Notice. None of the Directors or Key Managerial Personnel of the Company or their relative(s) is, in any way, concerned or interested, financially or otherwise, in the said resolution.

Item no. 6:

Pursuant to provisions of Section 188 of the Companies Act, 2013, read with the Rules made thereunder and SEBI Regulations, all material related party transactions (other than as specified under Regulation 23 of SEBI Regulations) shall require approval of the shareholders through an ordinary resolution.

The Company has, on June 30, 2016, has diluted equity stake in Man Realtors and Holdings Private Limited (MRHPL); a wholly owned subsidiary of the Company. MRHPL is engaged in the business of real estate and is currently undertaking a real estate development Project at Ghatkopar (E), Mumbai (Project). The Company may enter into transaction(s) with MRHPL in connection with its Project. On dilution of equity as aforesaid, MRHPL has ceased to be a wholly owned subsidiary of the Company and consequently the related party transaction(s) with MRHPL shall require approval of shareholders pursuant to Section 188 of the Companies Act, 2013, the Companies (Meeting of Board and its Powers) Rules, 2014 and Regulation 23 of Securities and Exchange Board of India (Listing Obligations and Disclosures Requirements) Regulations, 2015 (SEBI Regulations).

Accordingly, the approval of the shareholders by way of an Ordinary Regulations is sought under Section 188 of the Companies Act, 2013, the Companies (Meeting of Board and its Powers) Rules, 2014 and SEBI Regulations, to enable the Company to enter into related Party Transactions in one or more tranches. The particulars of the Related Party Transactions, which are required to be stated in the Explanatory Statement, as per Rule 15(3) of the Companies (Meetings of Board and its Powers) Rules, 2014 are as follows:

6. Reasons for not spending two percent of the average net profit of the last three financial years:

The Company has almost spent the entire amount towards CSR as required under the provisions of the Companies Act, 2013 and the Companies (Corporate Social Responsibility Policy) Rules, 2014 and Company's CSR Policy and the Company has identified various charitable organisations having an established track record in undertaking CSR projects and programs in the areas of eradicating hunger and poverty, education, health and safety, gender equality, woman empowerment, animal welfare and other similar and incidental CSR activities in the last quarter of Financial Year. The intent is to ensure positive impact of CSR activities and allocate the limited resources in a calibrated manner. The Company intends to expand the scope and allocation of funds gradually in due course.

7. The implementation and monitoring of CSR policy is in compliance with CSR objectives and policy of the Company.

REPORT ON CORPORATE GOVERNANCE

1. Company's Philosophy on code of Corporate Governance:

Corporate Governance is a value-based framework for managing the affairs of the Company in a fair and transparent manner. As a responsible Company, Man Infraconstruction Limited ('MICL') uses this framework to maintain accountability in all its affairs, and employ democratic and open processes, which in turn leads to adoption of best governance practices and its adherence in true spirit, at all times. The Company's philosophy is primarily based on the principles of integrity, transparency, fairness, accountability, full disclosure and independent monitoring of the state of affairs. The Board of Directors ('the Board') is at the core of our corporate governance practice and oversees how the Management serves and protects the long-term interests of all our stakeholders. We believe that an active, well-informed and independent Board is necessary to ensure the highest standards of Corporate Governance. This governance protects and balances the interests of all the stakeholders thereby enhancing the shareholder value.

2. The Governance Structure:

MICL's governance structure is based on the principles of freedom to the executive management within a given framework to ensure that the powers vested in the executive management are exercised with due care and responsibility so as to meet the expectation of all the stakeholders. In line with these principles, the Company has formed three tiers of Corporate Governance structure, viz.:

(i) The Board of Directors

The primary role of the Board is to protect the interest and enhance value for all the stakeholders. They conduct overall strategic supervision and control by setting the goals & targets, policies, governance standards, reporting mechanism, accountability and decision making process to be followed.

(ii) Committees of Directors

Committees of Directors such as Audit Committee, Nomination & Remuneration Committee, Stakeholder Relationship Committee, Corporate Social Responsibility Committee and Management Committee, are focused on financial reporting, audit & internal controls, compliance issues, appointment and remuneration of Directors and Senior Management Employees, implementation and monitoring of CSR activities.

(iii) Executive Management

The Executive Directors are responsible for achieving the Company's vision and mission, business strategies, project execution, significant policy decisions and all the critical issues having significant business & financial implications. They are also responsible for the overall performance and growth of the Company and to ensure implementation of the decisions of the Board of Directors and its various Committees.

3. Board of Directors:

i. Composition of the Board

The Company has a very balanced and diverse Board of Directors, which primarily takes care of the business needs and stakeholders' interest. The Non-executive Directors including Independent Directors on the Board are experienced, competent and highly renowned persons from their respective fields of expertise. They take active part at the Board and Committee Meetings by providing valuable guidance to the Management on various aspects of business, policy direction, governance, compliance etc. and play pivotal role on strategic issues, which enhances the transparency and add value in the decision making process of the Board of Directors.

The composition of the Board as on 31st March, 2016 is in conformity with the provisions of the Companies Act, 2013 and Regulation 17(1) of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI Regulations"). Management Discussion and Analysis

ECONOMY OVERVIEW:

The global economy is in a slowdown mode amidst deepening credit crunch and upsetting developmental targets of economies across the world. In the prevailing scenario, infrastructure remains a top priority for addressing developmental gaps as it is considered omnipotent with potentials of lifting economies out of the financial turmoil. The governments around the world are pumping money to generate demands for goods and services by creating jobs through higher spending into physical and social infrastructure. Likewise, the Indian government on its part is not lagging behind on this score and has taken concrete steps to revive the sector.

India's GDP growth for the third quarter of FY2015-16 was recorded at 7.3%, as compared to 6.6% in the same period last fiscal. Wholesale price index-based inflation rate contracted for the 16th straight month in February to 0.91%, driven down by low oil prices and softening vegetable prices. Consumer price index-based (CPI-based) inflation softened to 5.18% in February from 5.69% a month ago. The current scenario have convinced the RBI to reduce the interest rates in the country to lowest level in five years i.e. at 6.5% also with the view of lowering it down further if inflation stays on the current trend. Growth will continue to be driven by private consumption, which has benefited from lower energy prices and higher real incomes. With the revival of sentiment and pickup in industrial activity, a recovery of private investment is expected to further strengthen growth.

The Indian economy is expected to be one of the fastest growing economies in the coming years. Total infrastructure spending is expected to be about 10.0% of Gross Domestic Product (GDP) during the 12th Five-Year Plan (2012–17), up from 7.6% during the previous plan (2007–12). Increased impetus to develop

infrastructure in the country is attracting both domestic and international players. Private sector is emerging as a key player across various infrastructure segments, ranging from roads and communications to power and airports.

India's urban population as a percentage of total population is around 32.7% in 2015 and is expected to rise to 40.0% by 2030. Better wages and better standard of living is expected to result in an increase in urban population in India to above 600 million by 2031 from 429 million in 2015.

Government initiatives such as various urban development policies and programs (e.g., JNNURM) are expected to contribute to enhanced urbanisation. Urbanisation and growing household incomes are driving demand for residential real estate and growth in the retail sector.

CONSTRUCTION & INFRASTRUCTURE SECTOR:

The construction industry is a major contributor towards India's GDP, both directly and indirectly. The construction sectors contribution to GDP in India has stayed fairly constant at around 7-8% for the last five years. It employs 33 million people, and any improvements in the construction sector affect a number of associated industries such as cement, steel, technology, skill-enhancement, etc. Apart from the Smart Cities project, the Government's 'Housing for All by 2022' will be a major game changer for the industry. Increased impetus to the creation of affordable housing mission, along with quicker approvals and other supportive policy changes will soon result in an increase in construction activity. According to ASSOCHAM Study, increase in demand of Indian construction sector can lead to an increase in overall output of the economy by 2.4 times.

According to a study by Timetric's Construction Intelligence Centre (CIC), increasing investments in residential construction and transport infrastructure will drive growth in India's construction industry over the forecast period (2016–2020). It forecasts the industry to rise from a value of USD 428.1 billion in 2015 to USD 563.4 billion in 2020. Due to industrialisation, urbanisation, a rise in disposable income and population growth; the demand for construction services is set to rise.

Infrastructure construction will continue to expand, driven by public and private sector investments in public transport infrastructure. Consequently, infrastructure construction is anticipated to be the industry's fastest-growing market and to reach to value INR 9.5 trillion (USD 140.1 billion) in 2020.

Our company is at the cusp of taking advantage of this surge in investment in Infrastructure. With our execution capabilities across varied sectors we have the experience to cater to varied infrastructure requirements of India. We have the flexibility to adapt to evolving economic landscape and are aspiring to outperform.

PORT INFRASTRUCTURE:

Maritime transport is a critical infrastructure for the social and economic development of a country. The Ports handle over 95% of the country's total international trade volume and around 70% of total trade value, thus, rising trade is contributing significantly to cargo traffic.

India has a coastline which is more than 7,517 km long, interspersed with more than 200 ports. Strong growth potential, favorable investment climate, and sops provided by state governments have encouraged domestic and foreign private players to enter the Indian ports sector.

Special Economic Zones are being developed in close proximity to several ports – comprising coal-based power plants, steel plants and oil refineries. All the green-field ports are being developed at shores with natural deep drafts and the existing ports are investing on improving their draft depth. Higher draft depth is required to accommodate large sized vessels.

Strong growth potential, favorable investment climate, and sops provided by state governments have encouraged domestic and

foreign private players to enter the Indian ports sector in-addition to the development of ports and terminals. By March 2015, around 99 Public Private Partnership (PPP) projects are operational with a total cost of around USD 8,813.8 million and capacity of 683.3 million tonnes per annum.

In FY2015, total cargo handled at Indian ports increased by 8.2% to 1,052.0 million tonnes from 972.6 million tonnes during FY2014. By FY2017, cargo capacity in India is expected to increase to 2,493.1 million tonnes from 1,806.8 million in FY2015. By FY2017, Cargo traffic at major ports in India is expected to rise to 943.1 million tonnes from 606.4 million tonnes in FY2016. Cargo traffic at non-major ports in India is expected to grow to 815.2 million tonnes from 470.7 million tonnes in FY2015.

National Maritime Agenda 2010–2020

- To create a port capacity of around 3,200 million tonnes to handle the expected traffic of about 2,500 million tonnes by 2020
- Proposed investment by 2020 is expected to be INR 1.09 lakh crore for major ports and INR 1.68 lakh crore for non-major ports
- To implement full mechanisation of cargo handling and movement at ports, thereby bringing Indian ports on a par with the best international ports in terms of performance and capacity
- Major ports have been working towards implementing 'Landlord port' concept duly limiting their role to maintenance of channels and basic infrastructure leaving the development operation management of terminal and cargo handling facilities to the private sector
- To develop two major ports (one each on East and West coast) to promote trade as well as two hub ports (one each on the West coast and the East coast) – Mumbai (JNPT), Kochi, Chennai, and Visakhapatnam

Sagarmala Project:

The prime objective of the Sagarmala project is to enhance port infrastructure, including modernization & setting up of new ports to transport goods quickly, efficiently and cost-effectively.

The Sagarmala Project is likely to see an investment to the tune of INR 70,000 crore in coming years. While most of this investment is expected to be made by government, some projects including development of islands and tourism facilities would be taken up in public-private partnership (PPP) mode. The projects mainly include increasing the capacity of existing major ports and adding new ports. Under the initiative that also includes connecting ports with inland waterways; the Government will set up 14 coastal economic zones and a special economic zone at Jawaharlal Nehru Port Trust (JNPT) in Mumbai.

We have been early entrants in the Port space with our proven execution across multiple projects within India at various locations such as Mumbai, Gujarat & Cochin. We believe we can benefit from the Infrastructure construction opportunities being generated in the port sector.

REAL ESTATE:

Over the last few years our company has increased its focus to leverage real estate EPC capabilities to Real Estate development. In this context we become increasingly integrated with the Real Estate sector. The recent RBI policies and the continued strength exhibited by the Indian Economy will be positively impacting the Real estate sector. We believe the transmission of lower rates for Housing sector will further catapult the demand and brighten the prospects for the sector.

India being the third largest developing economy in the Asia enjoys a unique position. The Government with its focus on business and growth for the nation is keen to undertake reforms critical for reviving growth. As India gears itself towards sustained growth; the real estate sector's significance becomes an area of key importance.

Today's cities face significant challenges such as increasing population, lack of physical and social infrastructure, environmental and regulatory requirements, declining tax bases and budgets, and increased costs. Long standing urban challenges include housing, especially for low income populations, infrastructure provision, and the delivery of a variety of services including water, sanitation, education and health. With a view to modernizing India and accelerating the process of urbanization, Government of India, has envisioned the creation of 100 'smart cities' in the next five years.

The changing physical, economic, and technological environment across the globe necessitates smart cities, which help to enhance livability, workability, and sustainability. These powerful drivers are converging to make smart cities a growing trend all over the world and they are:

- Growing Urbanisation
- Rising Stress

- Inadequate Infrastructure
- Increasing Economic Competition
- Rising Expectations
- Growing Environmental Challenges
- Rapidly Improving Technology

The real estate market is estimated to grow to USD 180 billion by 2020 from USD 93.8 billion in 2014, driven by demand mainly from residential sector.

Real Estate Regulatory Bill now a law

Passing of the long-pending Real Estate Regulatory Bill, which was widely discussed, is an unequivocal victory for the Indian real estate sector.

The real estate industry has welcomed the major reform that promises to bring in much-needed transparency and accountability. It will create a much-needed consumer right protection umbrella for buyers of real estate, thereby increasing consumer confidence as well as creating lasting developer brands strong on quality and timely delivery of their projects.

Norms on size of projects had been relaxed from 1,000 sq. m to 500 sq. m and further reduction in size can be brought under the purview of the regulator by state governments.

This law will reduce volatility seen in this sector and bridge the trust deficit between both stakeholders – builders and buyers.

We as an organization since inception have focused on all the parameters which are currently part of Real Estate Regulatory Bill. We have always adhered to strict project cash flow discipline. We have a reputation of completing our projects on promised schedules, or even before; and continuously endeavor to achieve the same.

REITs

Over the last year, the government notified significant regulations regarding REITs, which we believe should make it conducive for large unlisted commercial landlords to list their portfolios. The government has accepted the industry’s long standing demand of DDT exemption on income distributed from the SPV. REITs, once fully operationalized, will have a significant effect on the industry by

1. Allowing for capital recycling thus reducing dilution risks at parent-co level.
2. Ability to undertake higher level of capex.
3. Improved institutional funding (long term capital from income asset owners) into the sector.
4. Allowing for lower financing costs as REITs are allowed to borrow offshore.

Other Government Initiatives

There are a string of measures that the Government has undertaken which will benefit the overall health of the economy thereby having a rub-off effect on our sector. Few initiatives are as below –

- Allocation of INR 22,407 Crore for housing and urban development in Budget 2015-16.
- Under the housing scheme, 6 crore houses are to be built in which 4 crore in rural areas and 2 crore in urban area by 2022. Government has initiated the development of Delhi Mumbai Industrial Corridor with the investment of USD 195.6 million.
- The government has allowed 100% FDI for townships and settlements development projects.
- Provision for reduction in minimum capitalization for FDI investment from USD 10 million to USD 5 million which would help in boosting urbanization.

Investment Destination

Total private equity (PE) investments from foreign funds in Indian real estate increased 33%, from USD 1,676 million (approx. INR 11,306 crore) in 2014 to USD 2,220 million (INR 14,974 crore) in 2015. Mumbai accounted for about 35% of the total foreign investments last year. This was due to high property prices and high investment potential. Mumbai was followed by Delhi NCR, which accounted for about 25% of the investments.

The three large cities; Mumbai, Bengaluru and Delhi-NCR continue to attract the highest investments in India and account for about 75% of investments made by Private equity.

With a healthy balance sheet and experience of decades to back us, we are well placed to capture the incremental opportunities in the Housing space including infrastructure.

MUMBAI REAL ESTATE:

Our core sector is the Mumbai Real estate market. We are directly co-related to the health of the Mumbai market which is a reflection of the larger Indian economy.

The year 2016 has begun on a mixed note for Indian Real Estate; while there are still concerns on slower sales and subdued demand there are also indicators of positive regulatory changes that may boost investor and buyer sentiment.

Land is a very scarce resource in Mumbai. Land in the city is either mill land (most of which is already bought and developed) or factory land or slum-encroached/ redevelopment land (and developing either of the two involves complicated procedures). The government does not have any land to offer.

The Mumbai Metropolitan Region (MMR) is spread over an area of 4,355 sq km, comprising 458 sq. km of Mumbai City and the rest covering regions in the Thane, Palghar and Raigad districts.

As per Knight Frank investment report, the performance of the various micro-markets in the MMR will vary according to their respective demand drivers, i.e. their occupation profiles, connectivity with employment hubs, physical and social infrastructure development and cost of real estate.

Mumbai Metropolitan Region (MMR)

MMR residential market launches, absorption and price trends

- According to Knight Frank report, in H1 2016
 - Infrastructure thrust, the improving office market and stable house prices will aid the housing market revival.
 - The central and state governments are pushing critical transit-oriented infrastructure projects in the MMR and aim at completion by 2019.
 - The Mumbai Trans Harbour Link has secured the environment clearance, and MMRDA has started the bidding process in May 2016.
 - Mumbai's coastal road has secured the forest and CRZ clearances. The bidding process will begin in June 2016.
 - The metro rail for the Dahisar to DN Nagar, Dahisar East to Andheri East, and Cuffe Parade to SEEPZ corridors has been expedited. Construction is to begin this year.

These government initiatives are likely to boost the real estate prospects in these micro markets.

Commercial Real Estate

The demand trends for corporate real estate picked up in Mumbai in the last quarter of FY2016, noting a healthy mix of front and back-office space transactions by corporate occupiers. Improving market sentiments and healthy pre-commitment levels in under-construction developments were the primary drivers for quarterly improvement in office space demand. FY2016 started with a good note as the office absorption doubled in Mumbai, from 0.49 million sq. ft. in Q4 2015 to 0.93 million sq. ft. in Q1 2016. The demand going forward will largely be driven by sectors like IT-ITes and BFSI. Developers will continue to focus on project completions, resulting in substantial new supply in the coming quarter in areas such as the western suburbs and Navi Mumbai.

Operational Review

Man Infraconstruction Ltd. (Man Infra) is an integrated EPC (Engineering, Procurement and Construction) company with four decades of experience and execution capabilities in Port, Residential / Commercial and Industrial & Road construction segments. The Company increased its focus as a Real Estate developer since 2013. The current portfolio of the Group includes 4 ongoing and 2 upcoming projects in Mumbai with an approximate saleable area of 5 million sq. ft. The Company has significant experience in construction management and has inherent skills and resources to develop and deliver Real estate projects.

During the year, Man Infra focused on execution of its existing order book and expediting its Real Estate Development Projects. The total outstanding EPC order book stood at ₹ 172 crore as on March 31, 2016. Out of the total order book, 89% was contributed

by the Residential segment, 5% by Infrastructure segment and 6% by Commercial and Industrial segment. During the year, Man Infra completed construction work of its prestigious port infrastructure work order at Port Pipavav, Gujarat within the scheduled timeframe. The Company is further exploring construction opportunities in the port infrastructure space with the Government's renewed thrust on developing the Maritime Sector.

On the Real Estate front, Man Infra's subsidiary Man Vastucon LLP (wherein Man Infra holds 99.9%) acquired Development Rights from the landowner to develop a Residential project having an approximate saleable area of 2.6 million sq. ft. in Dahisar, Thane. Strategically located on the Western express highway, the Company plans to launch this project in FY 2017.

Man Group completed its second Real Estate Project 'Aaradhya Saphalya' in May 2016; well within the scheduled timeframe. The construction work on another 3 Residential Redevelopment projects has commenced in FY 2016. The Group is planning to redevelop a sizeable MHADA project in Ghatkopar East, Mumbai. This project is in Approval Stage and is expected to be launched in FY 2017.

Man Group's mega Real Estate project "Atmosphere" having an approximate saleable area of 1.8 million sq. ft., which is being developed in a joint venture with The Wadhwa Group and Chandak Developers has progressed well with more than 50% of inventory being sold in Phase 1. The construction of the project which is being executed by Man Infra has been progressing well and is currently considered as Mulund's fastest developing project.

The Company's financial performance for the year 2015-16 remained subdued, as, while the revenue for 'Atmosphere' project has not yet been recognized; the revenue recognition for two smaller redevelopment projects started in Q4FY16. The Company is expecting to start recognizing revenue in its 3 ongoing Real Estate projects in FY2017; translating into a strong growth going forward. In addition to this, the 2 upcoming projects in Ghatkopar and Dahisar will fuel the Company's growth once the projects start recognizing revenue. As on March 31, 2016, the holding company Man Infra continues to remain debt free with a cash & cash equivalent of ₹ 177 crore.

Manaj Tollway Private Limited (MTPL), which was executing a 41 km Road project on DBFOT basis and where Man Infra holds 63% stake had issued a letter to Public Works Department, Government of Maharashtra (PWD) in March 2015 for terminating the Concession Agreement due to their inability to provide necessary Land for implementation of the Project. Further, MTPL claimed costs incurred and compensation in line with the terms of the Concession Agreement from the authorities. The management is constantly reviewing the progress of this and is confident that it would be able to recover a substantial amount of compensation within a reasonable timeframe.

Man Group continued to lay foundation for future growth by focusing on quality execution, timely delivery and sustained momentum in business development. The Company will endeavor to add prudent EPC and Real Estate projects in its portfolio accelerating the growth of the Company's EPC as well as Real Estate development business.

Financial Performance - Consolidated

- Total Income stood at ₹ 26,286.04 lakhs for FY16.
- Profit after tax and minority interest stood at ₹ 1,326.38 lakhs in FY16 as compared to ₹ 4,741.01 lakhs in FY15.
- The Company achieved a PAT margin of 5.05% in FY16
- The Company had a Cash & Cash Equivalent of ₹ 21,560.82 lakhs at the end of FY16

Financial Performance - Standalone

- Total Income stood at ₹ 26,328.36 lakhs for FY16.
- Profit after tax stood at ₹ 3,756.28 lakhs in FY16 as compared to ₹ 5,051.80 lakhs in FY15.
- The Company achieved a PAT margin of 14.27% in FY16
- The Company had a Cash & Cash Equivalent of ₹ 17,728.49 lakhs at the end of FY16

Risk Management

The Company works in an environment which is affected by various factors, some of which are controllable while some are outside the control of the Company. At Man Infra, we have developed a robust risk management framework that reduces the volatility due to unfavorable internal and external events, facilitates risk assessment and mitigation procedure, lays down reporting procedure and enables timely reviews by the management. The following section discusses some of these risks and steps taken by Man Infra to mitigate such risks.

1. Economic Risk

- a. Risk: An unexpected development in any of the macroeconomic variables that may adversely impact the Company's profitability or viability. Both Infrastructure and Real estate are cyclical industry and they get impacted more by the changes in macroeconomic variables like interest rate, GDP Growth, purchasing power, inflation, among others.
- b. Mitigation Plan: Man Infra continues to be conservative and follows well defined internal prudential norms. The Company has attempted to hedge against the inherent risks of Real Estate business by following joint development model. It maintains a low debt equity ratio, high liquidity and strong clientele with broadly timely payment track-record which helps in minimizing the impact of any downturn in economy.

2. Execution Risk

- a. Risk: Real Estate and construction projects are subject to various execution risks like regulatory hurdles, delay in receipt of approvals, availability of labour and raw material, etc. Any such delay may result in cost overruns and impact the Company's operations unfavorably.
- b. Mitigation Plan: Man Infra has put in place processes that include milestone based time & quality checks that help to ensure adherence to quality, cost and delivery as per the plan. The Company deploys a well-defined standard operating procedure – from project planning to delivery – and adheres to internal checks and balances with regard to every project. Extensive diligence is carried out before entering into partnerships for joint development.

3. Liquidity Risk

- a. Risk: The Real estate business has significant initial outflow with staggered and long-term inflows. Delays in project cycle; inadequate funding resources may have an impact on the liquidity position of the Company.
- b. Mitigation Plan: Man Infra has a sound liquidity position with approximately ₹ 177 crore in cash and cash equivalents as on 31st March, 2016. The Company maintains financial discipline with regards to the investment and subsequent cash flow generation from a project. Moreover, the Company has also been taking adequate measures to manage working capital cycles like monitoring and closely following up with debtors. For the EPC business, the Company also receives mobilization advances, which aids liquidity management.

4. Input Price Risk

- a. Risk: The Group's Real estate operations as well as EPC contracts are subject to cost overruns due to increase in material cost or labour cost. The Company's earnings may be affected from the volatility in the price of input.
- b. Mitigation Plan: For EPC projects, Man Infra has a price escalation clause where the increase in the input cost is directly passed to the client. For development projects, Man Infra takes this risk into account at the time of launch. Also, the Company usually sells the projects in a phased manner which aids in covering the rise in cost of construction in subsequent sale.

5. Competition

- a. Risk: All Companies face the risk of competition, across all industries. This is not an exception for construction industry as well. In order to stay competitive in the market, Companies resort to various tactics to achieve a sustainable and a profitable growth.

- b. Mitigation: The Company's endeavor is to offer high-value product for quality conscious customers. The Company constantly focuses on deploying latest technologies for projects and cost effective measures to enhance operational efficiency resulting in timely delivery. Man Infra also strives to offer distinctive features in its projects to stand out from competition.

6. Sales Volume

- a. Risk: The performance of the Company may be affected if there is substantial difference between the estimated and actual sales volume of the Real Estate development projects.
- b. Mitigation: The volume of sales in the Real Estate business depends on the nature and location of the project, design & layout and the reputation of the developer. Man Infra launches its projects depending on the prevailing market conditions. It strives to build a worthy reputation in the industry by delivering superior quality product and maintaining long-binding relationships with all its clients and stakeholders.

Human Resources

The Company believes that its capability to preserve and continue its growth depends largely on its strength of developing, motivating and retaining talent. It firmly believes that highly motivated and empowered employees are its best assets to maintain a competitive edge in the market. The management is committed to continuously upgrading skills and competency at all levels with the aid of extensive training. The Company has obtained

certifications for both Safety - OHSAS 18001, and Environment ISO 14001 underlining its commitment to employees' safe working conditions and social awareness. Man Group has a team of more than 400 employees as on 31st March, 2016.

The Company's employees possess requisite qualifications and technical expertise to execute projects across the Real Estate and construction services domain. The Company's HR will continue to focus on maintaining excellent work culture, employee development and competitive compensation to ensure a motivated and empowered workforce.

Internal Control Systems

The Company has an adequate internal control system to safeguard all assets and ensure their efficient productivity. The Company practices quality management system for design, planning and construction that complies with International quality standards. The Company has a suitable internal control system for the business processes, operations, financial reporting, compliance with applicable laws and regulations. The Internal Audit firm conducts periodical audits to ensure adequacy of internal control systems and adherence to management policies. Wherever deemed necessary, internal control systems are also reassessed and corrective action is taken, if required.

Independent Auditor's Report

TO THE MEMBERS OF MAN INFRACONSTRUCTION LIMITED

Report on the Standalone Financial Statements

We have audited the accompanying standalone financial statements of MAN INFRACONSTRUCTION LIMITED (hereinafter referred to as "the Company"), which comprise the Balance Sheet as at March 31, 2016, the Statement of Profit & Loss and Cash Flow Statement for the year ended, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the standalone financial statements").

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in sub-section 5 of section 134 of the Companies Act, 2013 (hereinafter referred to as "the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act, read with rule 7 of the Companies (Accounts) Rules, 2014 (hereinafter referred to as "the Rules"). This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder. We conducted our audit in accordance with the Standards on Auditing specified under sub-section 10 of section 143 of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used

and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the state of affairs of the Company as at March 31, 2016 and its profit and its cash flows for the year ended on that date.

Annexure B referred to in paragraph 2(f) under "Report on Other Legal and Regulatory Requirements" of our Independent Auditor's report of even date, to the members of Man Infraconstruction Limited ("the Company") on the standalone financial statements for the year ended 31st March, 2016

Report on the Internal Financial Controls under clause (i) of sub-section 3 of section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of the Company as of March 31, 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing specified under sub-section 10 of section 143 of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Summary of Significant Accounting Policies and Notes Forming Part of the Financial Statements

1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

1.1 Corporate information

Man Infraconstruction Limited is a Public Company domiciled in India and incorporated under the provisions of the Companies Act, 1956. Its shares are listed on Bombay Stock Exchange and National Stock Exchange in India. The Company was incorporated on 16th August, 2002 and is engaged in the business of Civil Construction.

1.2 Basis of preparation of Financial Statements:

These financial statements have been prepared in accordance with the generally accepted accounting principles in India, on the basis of going concern under the historical cost convention on accrual basis. These financial statements have been prepared to comply, in all material aspects with the accounting standards notified under section 133 of the Companies Act, 2013 (the Act), read together with rule 7 of the Companies (Accounts) Rules, 2014 and the relevant provisions of the Act. The accounting policies have been consistently applied by the Company and are consistent with those used in the previous year.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Act. Based on the nature of operations and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as less than 12 months for the purpose of current – non current classification of assets and liabilities.

Transactions and balances with values below the rounding off norm adopted by the Company have been reflected as "0.00" in the relevant notes in these financial statements.

1.3 Use of Estimates:

The preparation of the financial statements in conformity with Indian GAAP requires that the management makes estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent liabilities as at the date of financial statements and reported amounts of revenue and expenses during the reported period. Although such estimates are on a reasonable and prudent basis taking into account all available information, actual results could differ from estimates. Differences on account of revision of estimates / actual outcome and existing estimates are recognised prospectively once such results are known / materialized in accordance with the requirements of the respective accounting standard, as may be applicable.

1.4 Tangible fixed assets:

Fixed assets are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price, non refundable

taxes, borrowing costs, if capitalization criteria are met and directly attributable cost of bringing the asset to its present location and condition for the intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

1.5 Intangible assets:

Intangible fixed assets are recognized only if they are separately identifiable and the Company expects to receive the future economic benefits arising out of them and cost of the assets can be measured reliably. Intangible assets are carried at cost less accumulated amortisation and accumulated impairment losses, if any.

1.6 Depreciation and amortization:

1.6.1 Depreciation on tangible fixed assets is computed on written down value method except with respect to Steel shuttering materials, Racks and pallets and Leasehold premises where depreciation is provided on straight line method (SLM). Depreciation for assets purchased / sold during a period is proportionately charged. Useful life and residual value prescribed in Schedule II to the Act are considered for computing depreciation except in the following cases :

Particulars	Useful Life (in years)
Steel Shuttering Materials (included in Shuttering Materials)	5
Leasehold premises are amortized on a straight line basis over the respective period of lease.	
Misc Equipments and Instruments	5 to 10

For Moulds for Mineral Materials (included in Shuttering Materials), the residual value is considered at 31% to 52% of original cost, which is higher than the limit specified in Schedule II to the Act.

For these classes of assets, based on internal assessments and technical evaluation, the Company believes that the useful lives and residual values as given above best represent the period over which the Company expects to use these assets. Hence the useful lives and residual values for these assets are different from the useful lives and residual values as prescribed in Schedule II to the Act.

1.6.2 Intangible assets are amortized on a straight line basis over the estimated useful economic life as follows:

Design charges for Shuttering Materials - amortised over expected project duration ranging from 1-2 years.

Computer software - 2 years.

The amortization period and the amortization method are reviewed atleast at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortization period is changed

accordingly. If there has been a significant change in the expected pattern of economic benefits from the asset, the amortization method is changed to reflect the changed pattern.

1.7 **Borrowing Costs :**

Borrowing costs that are attributable to the acquisition, construction or production of qualifying assets are treated as direct cost and are capitalised as part of cost of such assets. A qualifying asset is an asset that necessarily requires a substantial period of time to get ready for its intended use or sale. All other borrowing costs are recognised as an expense in the year in which they are incurred.

1.8 **Impairments:**

The carrying amounts of assets are reviewed at each balance sheet date when required to assess whether they are recorded in excess of their recoverable amounts, and where carrying values exceed this estimated recoverable amount, assets are written down to their recoverable amount. The reduction is treated as an impairment loss and is recognized in the Statement of Profit and Loss. If at the balance sheet date there is an indication that if a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the assets are reflected at the recoverable amount.

1.9 **Investments:**

Investments that are readily realizable and intended to be held as on date of investment for not more than a year are classified as current investments. All other investments are classified as long-term investments. Current investments are carried at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is recognized if it is other than temporary. Cost of investments include acquisition charges such as brokerage, fees and duties.

1.10 **Inventories:**

1.10.1 Inventory of construction materials is valued at lower of cost (net of indirect taxes, wherever recoverable) and net realizable value. Cost is determined on FIFO basis. However, inventory is not written down below cost if the estimated revenue of the concerned contract is in excess of estimated cost.

1.10.2 Work-in-progress / other stock is valued at lower of cost (net of indirect taxes, wherever recoverable) and net realizable value.

1.11 **Revenue Recognition:**

1.11.1 Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

1.11.2 **Construction Contracts**

Contract revenue and expenses associated with the construction contracts are recognized by reference to the stage of completion of the project at the reporting date. The stage of completion of project is determined by considering all relevant factors relating to contracts including survey of work performed, on completion of a physical proportion of the work done and proportion of contract costs incurred. When it is probable that total contract costs will exceed total contract revenue, the expected loss is recognised as an expense immediately irrespective of stage of work done. Variations, claims and incentives are recognized to the extent that it is probable that they will result in revenue and they are capable of being reliably measured.

1.11.3 Revenues from other contracts are recognised in terms of underlying arrangements and on rendering of services.

1.11.4 **Interest and dividend income**

Interest income is accounted on accrual basis. Dividend income is accounted for when the right to receive it is established.

1.11.5 **Accounting for Lease Income**

Income earned by way of leasing or renting out of commercial premises is recognized as income in accordance with Accounting Standard 19 on Leases. Initial direct cost such as brokerage, etc. are recognized as expenses on accrual basis in the Statement of Profit and Loss in the year of lease.

1.12 **Foreign Currency Transactions:**

Foreign currency transactions are recorded at the exchange rate prevailing at the date of transactions. Exchange gains and losses arising on settlement of such transactions are recognized as income or expense in the year in which they arise.

Monetary assets and liabilities related to foreign currency transactions remaining unsettled at the end of the year are translated at the year end rate and difference in translations and unrealized gains or losses on foreign currency transactions are recognized in the Statement of Profit and Loss.

Non-monetary items, which are measured in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of the transaction.

1.13 **Employee Benefits:**

1.13.1 Short term employee benefits (benefits which are payable within twelve months after the end of the period in which the employees render service) are measured at cost and recognized during the period when the employees render the service. Accumulated leave, which is expected to be

utilized within the next 12 months, is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

1.13.2 Long term employees benefits (benefits which are payable after the end of twelve months from the end of the period in which the employees render service) and Post employment benefits (benefits which are payable after completion of employment) are measured on a discounted basis by the Projected Unit Credit Method on the basis of annual third party actuarial valuation and are recognized during the period when the employees render the service.

1.13.3 Contributions to provident fund, a defined contribution plan, are made in accordance with the rules of the statute and are recognized as expenses when employees render service entitling them to the contributions. The Company has no obligation, other than the contribution payable to the provident fund.

1.13.4 Actuarial gains / losses are immediately taken to the Statement of Profit and Loss and are not deferred.

1.14 Taxes on income:

Provision for Taxation is made on the basis of taxable profits computed for the current accounting period (reporting period) in accordance with the Income Tax Act, 1961;

Deferred tax is calculated at the rates and laws that have been enacted or substantively enacted as of the Balance Sheet date and is recognized on timing differences that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax assets are recognized on carry forward tax losses and unabsorbed depreciation only if there is virtual certainty that sufficient future taxable income will be available against which such deferred tax asset can be realized. Other deferred tax assets are recognised only to the extent there is a reasonable certainty of realization in future. The effect on deferred tax assets and liabilities of change in tax rates is recognized in the Statement of Profit and Loss in the period of substantive enactment of the change. The carrying amount of deferred tax assets are reviewed at each reporting date. The Company writes-down the carrying amount of deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realized. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

1.15 Earnings Per Share:

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting preference dividends and attributable taxes) by the weighted average number of equity shares outstanding during the period. Partly paid equity shares are treated as a fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

1.16 Provision and Contingent Liabilities / Assets :

A provision is recognized when an enterprise has a present obligation as a result of past event; it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Contingent liabilities are stated separately by way of a note. Contingent Liabilities are disclosed when the Company has a possible obligation or a present obligation and it is not probable that a cash outflow will be required to settle the obligation. Contingent Assets are neither recognised nor disclosed.

1.17 Cash and Cash Equivalents:

Cash and cash equivalents for the purposes of cash flow statement comprise cash at bank, cash in hand, deposits with banks and other short-term investments with an original maturity of three months or less.

1.18 Cash Flow Statement:

Cash Flows are reported using the indirect method, whereby net profit before tax is adjusted for the effects of transactions of a non-cash nature, such as deferrals or accruals of past or future operating cash receipts or payments and items of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are separately mentioned.

Independent Auditor's Report

TO THE MEMBERS OF MAN INFRACONSTRUCTION LIMITED

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of MAN INFRACONSTRUCTION LIMITED (hereinafter referred to as "the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") and its jointly controlled entities, (as defined in the Companies (Accounting Standards) Rules, 2006) comprising of the Consolidated Balance Sheet as at 31st March, 2016, the Consolidated Statement of Profit and Loss, the Consolidated Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

Management's Responsibility for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation of these consolidated financial statements in terms of the requirements of the Companies Act, 2013 (hereinafter referred to as "the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group including its Jointly controlled entities in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. The respective Governing Bodies of the entities included in the Group and of its jointly controlled entities are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and and of its jointly controlled entities for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Board of Directors of the Holding Company, as aforesaid.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder. We conducted our audit in accordance with the Standards on Auditing specified under sub section 10 of section 143 of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements. We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in sub-paragraph (a) of the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group, its jointly controlled entities as at 31st March, 2016, and their consolidated profit and their consolidated cash flows for the year ended on that date.

Emphasis of Matter

We draw attention to Note No. 2.22 to the consolidated financial statements regarding issue of termination letter by Manaj Tollway Private Limited, (MTPL) a subsidiary of the Company to Public Works Department, Government of Maharashtra (PWD) on March 30, 2015 for terminating the Concession Agreement with respect to the construction of road on DBFOT basis due to unresolved matters on land acquisition and forest clearance and has stopped the work. As at March 31, 2016, expenses incurred on construction of tollway and classified as "Intangible assets under Development" by MTPL amounted to ₹ 12,993 Lakhs. MTPL has claimed costs incurred and compensation in line with the terms of the Concession Agreement from the authorities. MTPL has been legally advised that it has a strong case on merits to recover such claims. The management is constantly driving the process and is confident that it would be able to recover a substantial amount of such claims within a reasonable timeframe. Our opinion is not qualified in respect of this matter.

Other Matters

We did not audit the financial statements of Eight subsidiaries and Three jointly controlled entities, whose financial statements reflect total assets of ₹ 72,628.47 Lakhs as at 31st March, 2016, total revenues of ₹ 1,981.92 Lakhs and net cash outflows amounting to ₹ 6,373.42 Lakhs for the year ended on that date, as considered in the preparation of the consolidated financial statements. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our

opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and jointly controlled entities, and our report in terms of sub-sections 3 and 11 of section 143 of the Act, insofar as it relates to the aforesaid subsidiaries and jointly controlled entities, is based solely on the reports of the other auditors.

Our opinion on the consolidated financial statements and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors.

Report on Other Legal and Regulatory Requirements

As required by sub-section 3 of section 143 of the Act, we report, to the extent applicable, that:

- (a) We have sought and obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
- (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.
- (c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss, and the Consolidated Cash Flow Statement dealt with by this Report are in agreement with the relevant books of account, workings and records maintained for the purpose of preparation of the consolidated financial statements.
- (d) In our opinion, the aforesaid consolidated financial statements comply with the Accounting Standards specified under section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

Annexure A referred to in paragraph 2(f) under "Report on Other Legal and Regulatory Requirements" of our Independent Auditor's report of even date, to the members of the Man Infraconstruction Limited ("the Holding Company") on the consolidated financial statements for the year ended 31st March, 2016

Report on the Internal Financial Controls under clause (i) of sub-section 3 of section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the standalone financial statements of the Holding Company for the year ended 31st March, 2016, we have audited the internal financial controls over financial reporting of the Holding Company, its subsidiaries and a jointly controlled entity, which are companies incorporated in India (hereinafter collectively referred to as "Covered Companies"), as on that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Covered Companies, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company, considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Holding Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing specified under sub-section 10 of section 143 of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Holding Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Covered Entities, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Holding Company, considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Other Matters

Our aforesaid report under clause (i) of sub-section 3 of section 143 of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting, in so far as it relates to five subsidiaries and a jointly controlled entity of the Holding Company, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies.

1.3 Principles of Consolidation:

1.3.1 The Consolidated Financial Statements have been prepared in accordance with Accounting Standard 21 (AS 21) - 'Consolidated Financial Statement', Accounting Standard 23 (AS 23) - 'Accounting for Investments in Associates in Consolidated Financial Statements' and Accounting Standard 27 (AS 27) - 'Financial Reporting of Interests in Joint Ventures'.

1.3.2 The Consolidated Financial Statements are based on the audited financial statements of the subsidiaries and jointly controlled entities for the year ended on 31st March 2016.

1.3.3 The Consolidated Financial Statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented to the extent possible in the same manner as the holding Company's financial statements.

1.3.4 The Subsidiaries are consolidated on a line-by-line basis in accordance with Accounting Standard 21 on "Consolidated Financial Statements". Interest of the minority shareholders in the subsidiaries' profits or losses and net worth is displayed separately in the consolidated financial statements. Inter-Company transactions and balances are eliminated on consolidation.

1.3.5 Investments in Associates are accounted for on one line basis applying the Equity Method in accordance with Accounting Standard 23 on "Accounting for Investment in Associates in Consolidated Financial Statements". Unrealised profits and losses resulting from transactions between the Company and the Associates are eliminated to the extent of the Company's Share in the associates.

1.3.6 Investments in Joint ventures are accounted for using the proportionate consolidation method in accordance with Accounting Standard 27 on "Financial Reporting of Interests in Joint Ventures". Unrealised profits and losses resulting from transactions between the Company and the Joint Venture Companies are eliminated to the extent of the Company's Share in the Joint Ventures.

1.3.9 The following jointly controlled entities have been considered in the preparation of these financial statements:

1.4 Use of Estimates:

The preparation of the financial statements in conformity with Indian GAAP requires that the management makes estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent liabilities as at the date of financial statements and reported amounts of revenue and expenses during the reported period. Although such estimates are on a reasonable and prudent basis taking into account all available information, actual results could differ from estimates. Differences on account of revision of estimates / actual outcome and existing estimates are recognised prospectively once such results are known / materialized in accordance with the requirements of the respective accounting standard, as may be applicable.

1.5 Tangible fixed assets:

Fixed assets are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price, non refundable taxes, borrowing costs, if capitalization criteria are met and directly attributable cost of bringing the asset to its present location and condition for the intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

1.6 Intangible assets:

Intangible fixed assets are recognized only if they are separately identifiable and the Company expects to receive the future economic benefits arising out of them and cost of the assets can be measured reliably. Intangible assets are carried at cost less accumulated amortisation and accumulated impairment losses, if any.

1.7 Depreciation and amortization:

1.7.1 Depreciation on tangible fixed assets is computed on written down value method except with respect to Steel shuttering materials, Racks and pallets and Leasehold premises where depreciation is provided on straight line method (SLM). Depreciation for assets purchased / sold during a period is proportionately charged. Useful life and residual value prescribed in Schedule II to the Act are

considered for computing depreciation except in the following cases:

Particulars	Useful Life (in years)
Steel Shuttering Materials (included in Shuttering Materials)	5
Leasehold premises are amortized on a straight line basis over the respective period of lease.	
Misc Equipments and Instruments	5 to 10

For Moulds for Mineral Materials (included in Shuttering Materials), the residual value is considered at 31% to 52% of original cost, which is higher than the limit specified in Schedule II to the Act.

For these classes of assets, based on internal assessments and technical evaluation, the Company believes that the useful lives and residual values as given above best represent the period over which the Company expects to use these assets. Hence the useful lives and residual values for these assets are different from the useful lives and residual values as prescribed in Schedule II to the Act.

1.7.2 Intangible assets are amortized on a straight line basis over the estimated useful economic life as follows:

Design charges for Shuttering Materials - amortised over expected project duration ranging from 1-2 years.

Computer software - 2 years.

The amortization period and the amortization method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortization period is changed accordingly. If there has been a significant change in the expected pattern of economic benefits from the asset, the amortization method is changed to reflect the changed pattern. Such changes are accounted for in accordance with AS 5 Net Profit or Loss for the Period, Prior Period Items and Changes in Accounting Policies.

1.8 Borrowing Costs :

Borrowing cost comprises of interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings.

Borrowing costs that are attributable to the acquisition, construction or production of qualifying assets are treated as direct cost and are capitalised as part of cost of such assets. A qualifying asset is an asset that necessarily requires a substantial period of time to get ready for its intended use or sale. All other borrowing costs are recognised as an expense in the year in which they are incurred.

1.9 Impairments:

The carrying amounts of assets are reviewed at each balance sheet date when required to assess whether they are recorded in excess of their recoverable amounts, and where carrying values exceed this estimated recoverable amount, assets are written down to their recoverable amount. The reduction is treated as an impairment loss and is recognized in the Statement of Profit and Loss. If at the balance sheet date there is an indication that if a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the assets are reflected at the recoverable amount.

1.10 Government Grants :

Grants and subsidies from the Government are recognised when there is reasonable assurance that (i) the Company will comply with the conditions attached to them, and (ii) the grant/subsidy will be received. Grants received in respect of the DBFOT project are considered as a part of the total outlay of the construction project and accordingly, the same is reduced from the gross value of assets.

1.11 Investments:

Investments that are readily realizable and intended to be held as on date of investment for not more than a year are classified as current investments. All other investments are classified as long-term investments. Current investments are carried at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is recognized if it is other than temporary. Cost of investments include acquisition charges such as brokerage, fees and duties.

1.12 Inventories:

1.12.1 Inventory of construction materials is valued at lower of cost (net of indirect taxes, wherever recoverable) and net realizable value. Cost is determined on FIFO basis. However, inventory is not written down below cost if the estimated revenue of the concerned contract is in excess of estimated cost.

1.12.2 Work in progress consists of projects and contracts in progress and are stated at cost (net of indirect taxes, wherever recoverable) or net realizable value, whichever is lower. Projects in progress include costs of incomplete properties for which the entity has not entered into sale agreements. Projects in progress also include initial project costs that relate directly to a (prospective) project, incurred for the purpose of securing the project. These costs are recognized as expenditure for the year in which they are incurred unless they are separately identifiable and it is probable that the respective project will be obtained. Costs included in inventory include costs incurred up to the completion of the project viz. cost of land, materials, services and other expenses (including borrowing costs) attributable to the projects. Other stock is valued at lower of cost (net of indirect taxes, wherever recoverable) and net realizable value.

1.12.3 Finished properties are stated at lower of cost and net realizable value.

1.13 Revenue Recognition:

1.13.1 Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured.

1.13.2 Construction Contracts

Contract revenue and expenses associated with the construction contracts are recognized by reference to the stage of completion of the project at the reporting date. The stage of completion of project is determined by considering all relevant factors relating to contracts including survey of work performed, on completion of a physical proportion of the work done and proportion of contract costs incurred. When it is probable that total contract costs will exceed total contract revenue, the expected loss is recognised

as an expense immediately irrespective of stage of work done. Variations, claims and incentives are recognized to the extent that it is probable that they will result in revenue and they are capable of being reliably measured.

1.13.3 Real Estate Projects :

Construction revenue is recognized on percentage completion method provided the following conditions are fulfilled :

- (a) All Critical approvals necessary for the commencement are obtained;
- (b) The expenditure incurred on construction and development costs is not less than 25 per cent of the total estimated construction and development costs;
- (c) At least 25 percent of the saleable project area is secured by contracts or agreement with buyers; and
- (d) At least 10 percent of the allotment / agreement value is realized at the reporting date in respect of such contracts and it is reasonable to expect that the parties to such contracts will comply with the payment terms as defined in the contracts.

1.13.4 Revenues from other contracts are recognised in terms of underlying arrangements and on rendering of services.

1.13.5 Interest and dividend income

Interest income is accounted on accrual basis. Dividend income is accounted for when the right to receive it is established.

1.13.6 Accounting for Lease Income

Income earned by way of leasing or renting out of commercial premises is recognized as income in accordance with Accounting Standard 19 on Leases. Initial direct cost such as brokerage, etc. are recognized as expenses on accrual basis in the Statement of Profit and Loss in the year of lease.

1.14 Foreign Currency Transactions:

Foreign currency transactions are recorded at the exchange rate prevailing at the date of transactions. Exchange gains and losses arising on settlement of such transactions are recognized as income or expense in the year in which they arise.

Monetary assets and liabilities related to foreign currency transactions remaining unsettled at the end of the year are translated at the year end rate and difference in translations and unrealized gains or losses on foreign currency transactions are recognized in the Statement of Profit and Loss.

Non-monetary items, which are measured in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of the transaction.

1.15 Employee Benefits:

1.15.1 Short term employee benefits (benefits which are payable within twelve months after the end of the period in which the employees render service) are measured at cost and recognized during the period when the employees render the service. Accumulated leave, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that

it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

- 1.15.2 Long term employees benefits (benefits which are payable after the end of twelve months from the end of the period in which the employees render service) and Post employment benefits (benefits which are payable after completion of employment) are measured on a discounted basis by the Projected Unit Credit Method on the basis of annual third party actuarial valuation and are recognized during the period when the employees render the service.
- 1.15.3 Contributions to provident fund, a defined contribution plan, are made in accordance with the rules of the statute and are recognized as expenses when employees render service entitling them to the contributions. The Company has no obligation, other than the contribution payable to the provident fund.
- 1.15.4 Actuarial gains / losses are immediately taken to the Statement of Profit and Loss and are not deferred.

1.16 Taxes on income:

Provision for Taxation is made on the basis of taxable profits computed for the current accounting period (reporting period) in accordance with the Income Tax Act, 1961. Minimum Alternative Tax (MAT) credit is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. The said asset is created by way of a credit to the Statement of Profit and Loss and shown as MAT credit entitlement. Such asset is reviewed at each Balance Sheet date and the carrying amount of MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the Company will pay normal income tax during the specified period.

Deferred tax is calculated at the rates and laws that have been enacted or substantively enacted as of the Balance Sheet date and is recognized on timing differences that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax assets are recognized on carry forward tax losses and unabsorbed depreciation only if there is virtual certainty that sufficient future taxable income will be available against which such deferred tax asset can be realized. Other deferred tax assets are recognised only to the extent there is a reasonable certainty of realization in future. The effect on deferred tax assets and liabilities of change in tax rates is recognized in the Statement of Profit and Loss in the period of substantive enactment of the change. The carrying amount of deferred tax assets are reviewed at each reporting date. The Company writes-down the carrying amount of deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realized. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

1.17 Earnings Per Share:

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting preference dividends and attributable taxes) by the weighted average number of equity shares outstanding during the period. Partly paid equity shares are treated as a fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

1.18 Provision and Contingent Liabilities / Assets :

A provision is recognized when an enterprise has a present obligation as a result of past event; it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Contingent liabilities are stated separately by way of a note. Contingent Liabilities are disclosed when the Company has a possible obligation or a present obligation and it is not probable that a cash outflow will be required to settle the obligation. Contingent Assets are neither recognised nor disclosed.

1.19 Share Issue Expenditure:

Expense incurred in relation to raising of share capital and increase in authorised capital have been written off in the Statement of Profit and Loss.

1.20 Cash and Cash Equivalents:

Cash and cash equivalents for the purposes of cash flow statement comprise cash at bank, cash in hand, deposits with banks and other short-term investments with an original maturity of three months or less.

1.21 Cash Flow Statement:

Cash Flows are reported using the indirect method, whereby net profit before tax is adjusted for the effects of transactions of a non-cash nature, such as deferrals or accruals of past or future operating cash receipts or payments and items of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Group are separately mentioned.

- 2.22 Fixed assets include "Intangible assets under development" amounting to ₹12,993 lakhs which represent expenses incurred on construction of tollway by Manaj Tollway Private Limited (MTPL), a subsidiary of the Company (wherein the Company effectively holds 63.64%). MTPL has issued a termination letter to Public Works Department, Government of Maharashtra (PWD) on 30th March 2015 for terminating the Concession Agreement with respect to the construction of road on DBFOT basis due to unresolved matters on land acquisition and forest clearance and has stopped the work. Accordingly, MTPL has suspended the capitalization of the interest cost for the period and debited the same to Profit & Loss account as active development of the project has been interrupted. MTPL has claimed costs incurred and compensation in line with the terms of the Concession Agreement from the authorities. MTPL has been legally advised that it has a strong case on merits to recover such claims. The management is constantly driving the process and is confident that it would be able to recover a substantial amount of such claims within a reasonable timeframe.
- 2.23 In the opinion of the management, Debtors, Loans and Advances and other Assets have a realisable value in the ordinary course of business, not less than the amount at which they are stated in the balance sheet and provision for all known liabilities and doubtful assets have been made.
- 2.24 As per the intimation available with the Company, there are no outstanding dues to Micro and Small Enterprises, as defined in the Micro, Small and Medium Enterprises Development Act, 2006, ('MSMED') and the Auditors have relied upon the same. The disclosure as per Sub-para FA of Para 6 of Part I of Schedule III to the Companies Act, 2013 is as under :
